Welcome Message

We warmly welcome you to the 2nd International Conference on Materials Science and Nanotechnology (ICMSN-2024) in the beautiful city of Paris, France during March 25-27, 2024. We are excited about the opportunities of holding an innovative hybrid conference and reaching a wider audience than a conference can possibly include. Participants from around the world are expected to actively participate in this event. It consists of a number of tutorial/keynote lectures, as well as research talks presenting frontier Materials science research developments and innovative nanotechnologies in the areas of biology, medicine, aerospace, optoelectronics, energy, materials and characterizations, low-dimensional nanostructures, and devices.

We are certain that this will be a platform to gather and disseminate the latest knowledge in recent advancements in emerging areas of diversified research fields covered during a conference that will provide a platform for the participants to share experiences and knowledge through several sessions, plenary & keynote presentations, oral and poster presentations, world-class researchers, workshops, and sponsors exhibits. You can expect a very stimulating, fruitful, and enjoyable time in Paris, France. We look forward to meeting you in Paris.

Conference Topics:

- **Advanced Materials Synthesis and Characterization**
- **Functional Materials and Devices**
- **Energy Materials and Sustainable Technologies**
- **Structural Materials and Mechanical Behaviour**
- **Biomaterials and Biomedical Engineering**
- **Nanomaterials and Nanotechnology**
- **Materials for Electronics and Photonics**
- **Computational Materials Science and Modelling**
- **Sustainable Materials and Circular Economy**
- **Advances in Materials Characterization Techniques**
- **Thin Films and Coatings**
- **Materials for Energy Storage and Conversion**
- **Advanced Manufacturing and Processing of Materials**
- **Electronic Packaging and Reliability**
- **Materials for Sustainable Construction and Infrastructure**
- **Nanomaterials Synthesis and Characterization**
- **Nanodevices and Nanoelectronics**
- **Nanomedicine and Nanobiotechnology**
- **Nanomaterials for Energy and Environment**
- **Nanophysics and Nanoelectromechanical Systems**
- **Nanomaterials for Electronics and Photonics**
- **Nanotechnology for Sustainable Agriculture**
- **Nanofabrication and Nanolithography**
- **Nanotoxicology and Safety**
- **Nanomaterials for Water Treatment and Purification**
- **Nanomaterials for Sensing and Detection**
- **Nanomagnetics and Spintronics**
- **Nanotechnology for Flexible Electronics**
- **Nanomaterials for Energy Harvesting and Conversion**
- **Nanomaterials for Advanced Manufacturing and 3D Printing**

About Paris:

Paris is the capital city of France and is known for its rich history, culture, art, and cuisine. It is one of the most visited cities in the world, with famous landmarks such as the Eiffel Tower, Notre-Dame Cathedral, the Louvre Museum, and the Champs-Élysées. Paris is also famous for its café culture, fashion, and nightlife.

Paris is served by two major international airports: Charles de Gaulle Airport (CDG) and Orly Airport (ORY). Here is a brief description of how to reach Paris by air:

Charles de Gaulle Airport (CDG): This is the largest and busiest airport in Paris, located about 25 km (15 miles) northeast of the city centre. It is served by numerous airlines from around the world and has excellent transportation links to the city, including trains, buses, taxis, and car rentals.

Orly Airport (ORY): Orly Airport is the second-largest airport in Paris and is located about 14 km (9 miles) south of the city centre. It is also served by several airlines from around the world and has good transportation links to the city, including trains, buses, taxis, and car rentals.
